

DAILY WORK REPORT

Intern Name: Janani S N

Date: 02-04-2026

Department: Computer Science & Engineering

Internship Domain: Full Stack (MERN Stack) Development

Project Title: Hotel Navarathna Palace - Restaurant Billing and Inventory Requirements (Backend), Hotel Navarathna Palace - Lodge Booking and Service Requirements (Backend)

1. Work Summary :

Today I worked on reviewing and organizing the backend modules of the Restaurant Management System. Worked on refining the existing API structure, verifying route integrations, and ensuring proper connection between controllers, models, and database. Additionally, I analyzed modules like order management, billing, and reporting to ensure smooth data flow and consistency across the system.

2.Task Breakdown

Sl.No.	Task /Work Description	Start Time	End Time	Status (Completed/In Progress/Pending)
1	Reviewed backend folder structure and API endpoints	10:00 AM	11:00 AM	Completed
2	Verified database connectivity and tested APIs using Postman	11:00 AM	1:00 PM	Completed
3	Analyzed order, billing, and report modules for integration	2:00 PM	4:00 PM	In Progress

3. Challenges & Issues Faced

Faced minor issues while validating API responses and ensuring proper data flow between different modules. Took some time to verify endpoint outputs and correct minor inconsistencies in request/response structure.

4. Pending Tasks if any for Current Day & Action Plan for Next Day

Complete integration of remaining modules such as inventory and notification system, optimize API responses and improve error handling.
