

DAILY WORK REPORT

Intern Name: Janani S N

Date: 03-04-2026

Department: Computer Science & Engineering

Internship Domain: Full Stack (MERN Stack) Development

Project Title: Hotel Navarathna Palace - Restaurant Billing and Inventory Requirements (Backend), Hotel Navarathna Palace - Lodge Booking and Service Requirements (Backend)

1. Work Summary :

Focused on revising the backend implementation of the Restaurant Management System and gaining a deeper understanding of how different modules interact with each other. I reviewed API functionalities, checked request and response handling, and ensured clarity on the overall workflow of modules such as authentication, order processing, and billing. This helped in strengthening my understanding of backend architecture and data flow.

2.Task Breakdown

Sl.No.	Task /Work Description	Start Time	End Time	Status (Completed/In Progress/Pending)
1	Revised backend APIs and project structure	10:00 AM	12:30 PM	Completed
2	Analyzed workflow of order and billing modules and reviewed API testing using Postman	2:00 PM	4:00 PM	Completed

3. Challenges & Issues Faced

Faced slight confusion while understanding the sequence of API calls between different modules. Resolved it by revisiting the code structure and testing APIs step-by-step.

4. Pending Tasks if any for Current Day & Action Plan for Next Day

Implement improvements in API structure and validation, continue testing all modules for better integration
