

## DAILY WORK REPORT

**Intern Name:** Janani S N

**Date:** 01-04-2026

**Department:** Computer Science & Engineering

**Internship Domain:** Full Stack (MERN Stack) Development

**Project Title:** Hotel Navarathna Palace - Restaurant Billing and Inventory Requirements (Backend), Hotel Navarathna Palace - Lodge Booking and Service Requirements (Backend)

### 1. Work Summary :

I worked on developing the backend for the Restaurant Management System using Node.js and MongoDB. I created APIs for modules like user authentication, menu, orders, billing, inventory, and tested them using Postman to ensure proper functionality.

### 1. Task Breakdown

| Sl.No. | Task /Work Description | Start Time                                               | End Time          | Status<br>(Completed/In Progress/Pending) |
|--------|------------------------|----------------------------------------------------------|-------------------|-------------------------------------------|
| 1      | Backend Setup          | Configured Node.js server and MongoDB connection         | 9:30 AM- 11:00 AM | Completed                                 |
| 2      | API Development        | Created APIs for users, menu, orders, billing, inventory | 11:00 AM- 12:30PM | Completed                                 |
| 3      | API Testing            | Tested APIs using Postman                                | 5:30 PM – 7:00 PM | Completed                                 |

### 3. Challenges & Issues Faced

Faced minor issues in database connection and routing, which were resolved through debugging and testing.

### 4. Pending Tasks if any for Current Day & Action Plan for Next Day

There are no pending tasks for today. For the next session, I will continue with improving authentication and security features.
