

DAILY WORK REPORT

Intern Name: Janani S N

Date: 04-04-2026

Department: Computer Science & Engineering

Internship Domain: Full Stack (MERN Stack) Development

Project Title: Hotel Navarathna Palace - Restaurant Billing and Inventory Requirements (Backend), Hotel Navarathna Palace - Lodge Booking and Service Requirements (Backend)

1. Work Summary:

Worked on testing and validating the backend APIs developed for the Restaurant Management System. Used Postman to perform CRUD operations on modules such as users, menu, orders, inventory, and logs. Verified API responses, ensured proper data storage in the database, and fixed minor issues related to routing and module integration.

2. Task Breakdown

Sl.No.	Task /Work Description	Start Time	End Time	Status (Completed/In Progress/Pending)
1	Tested backend APIs using Postman	10:00 AM	11:30 AM	Completed
2	Validated database entries and responses	11:30AM	1:00 PM	Completed
3	Fixed routing and integration issues	3:00 PM	4:30 PM	Completed

3. Challenges & Issues Faced

Got issues with API routing and module conflicts, especially in handling log-related routes. These issues were resolved by correcting route paths and ensuring proper exports and imports in the project files.

4. Pending Tasks if any for Current Day & Action Plan for Next Day

There are no pending tasks for today. For the next session, I will continue with final testing of all modules and start with backend part of lodge booking and service requirements.
